

Keerthana Mohan Durai

Brampton · (905) 460-4934 · kmohandurai@gmail.com

PROFESSIONAL SUMMARY

IT Project Coordinator and Business Systems Analyst with hands on experience in Agile delivery, stakeholder coordination, and process documentation across education and community program environments. Builds on a self directed AI governance portfolio spanning project charters, requirements engineering, RAID logs, and non human identity/agent authentication design. Ontario Graduate Certificate in IT Project Management (Humber College). Proficient in Jira, Confluence, Power BI, SQL, and Microsoft Project, with a growing focus on AI-enabled PMO and business analysis delivery.

CORE COMPETENCIES

- ▶ Project Charter & Business Case Development
- ▶ Requirements Gathering (Functional & Non-Functional)
- ▶ Risk & Issue Management (RAID Logs)
- ▶ Change Management (ADKAR)
- ▶ Stakeholder Analysis & RACI Matrices
- ▶ Agile/Scrum Delivery & Sprint Planning (Jira)
- ▶ AI Governance & Agent Authentication Design
- ▶ BI Reporting & KPI Dashboards (Power BI)

PROFESSIONAL EXPERIENCE

Program Coordinator · *The Indigenous Network* · Toronto, ON

Feb 2025 – Nov 2025

- Coordinated the planning, implementation, and daily delivery of community based programs, managing schedules, priorities, and cross-functional activities.
- **Co led the planning and launch of a new community-based early learning program**, collaborating with senior leadership to define objectives, implementation milestones, operational workflows, and curriculum delivery.
- Managed project schedules, procurement activities, vendor communications, resource planning, and implementation documentation to support successful program rollout.
- Facilitated weekly stakeholder meetings, tracked action items, communicated project updates, and supported continuous program improvements.
- Coordinated workshops, conferences, and community engagement initiatives while maintaining strong relationships with educators, families, community partners, and internal stakeholders.
- Developed operational documentation, reports, communication materials, and program resources using Microsoft Office, Canva, and AI productivity tools.
- Identified process improvement opportunities, standardized workflows, and managed multiple concurrent priorities while consistently meeting deadlines

Facilitator · *Nestlings Early Learning Centre*. Brampton ON

Mar 2024 – Feb 2025

- Coordinated schedules, resources, and daily operations across early learning settings.
- Created structured documentation to track progress and support evidence-based decisions.
- Collaborated with educators and families to communicate updates and improve service delivery.
- Contributed to workflow improvements and operational coordination through team planning.

Montessori Directress · *Songbirds Montessori*. Brampton ON

Oct 2023 – Mar 2024

- Planned and delivered Montessori-based learning programs, adapting activities to individual needs.
- Managed daily operations including schedules, materials, and classroom workflows.
- Developed progress records and reports to support planning and stakeholder communication.
- Applied problem-solving and continuous improvement practices in a dynamic environment.

Early Childhood Education Placement — 800 Hours · *Multiple Early Learning Centres & Community Resource Centre, RECE Diploma, Humber Polytechnic* 2022-2023

- Completed 800 hours of practical placement spanning toddler, preschool, daycare, and community resource settings, applying structured learning and operational protocols across varied environments.
- Conducted learner observation, needs assessment, and program planning to support evidence-based, individualized service delivery.
- Produced documentation and progress reporting to inform stakeholder decision-making and continuity of care.
- Built foundational competencies in user needs assessment, cross-functional collaboration, and problem-solving under real-world operational constraints.

VOLUNTEER EXPERIENCE

IT Project Coordinator (Volunteer — Leadership Team) · *Humber College* · Toronto

Jan 2026 – Apr 2026

- Coordinated a college-wide technology project spanning five project teams and faculty stakeholders, as part of a volunteer leadership-team role during Graduate Certificate studies.
- Assisted with project planning, milestone tracking, stakeholder communication, and documentation throughout the project lifecycle.
- Supported Agile project delivery using established project management methodologies, keeping sprint-level work visible to stakeholders.
- Prepared recurring project status reports and maintained documentation for stakeholder review, reducing ambiguity around project state.

- Coordinated stakeholder meetings and tracked deliverables against milestones to keep the project on schedule.

PORTFOLIO PROJECT

Tech Bridge Solutions — Agentic AI Employee Onboarding Platform May 2026- present

Self-directed portfolio project simulating a full AI project lifecycle for a fictional company, from business case through Agile delivery, AI governance, and reporting.

Project Foundation & Governance | *Project Charter · Business Case · AI Governance Framework · ADKAR Change Plan*

- Authored a Project Charter and Business Case defining problem statement, a measurable design-target objective (30% reduction in onboarding-related tickets within 3 months), scope, timeline, and success criteria.
- Authored an AI Governance Framework covering responsible AI principles, controls, and monitoring, including a dedicated Non-Human Identity/Agent Authentication section (least-privilege tool access, audit logging, human-approval thresholds for high-risk actions).
- Designed an AI Adoption & Change Management Plan using the ADKAR model, including communication and training strategy for HR/IT rollout.

Stakeholder & Requirements Analysis | *Stakeholder Register · Power-Interest Matrix · RACI · Behavior Specification*

- Conducted stakeholder analysis across 10 roles (Executive Sponsor through end users); built a Stakeholder Register, Power-Interest Matrix, and RACI Matrix defining engagement strategy and activity ownership.
- Documented functional and non-functional requirements plus an AI Behavior Specification defining task boundaries, constraints, failure modes, and human-escalation fallback rules.

Agile Delivery & AI Architecture | *Jira · Sprint Backlog · Agent Architecture · Prompt Engineering*

- Built an Agile delivery plan — 1 Epic and 10 user stories with acceptance criteria — organized into a Jira board and Sprint 1 backlog.
- Designed an AI Agent Architecture diagram and AI Workflow diagram, plus a Failure Analysis table covering common agentic AI failure modes.
- Wrote a Prompt Library and 4-dimension Evaluation Rubric to support prompt design and AI output quality assessment.
- Produced a RAID Log identifying 8-10 risks, assumptions, issues, and dependencies specific to AI project delivery.

Data, Cloud & Reporting | *SQL · Python · Power BI · Cloud Architecture*

- Performed SQL analysis on a synthetic onboarding dataset and built a Python/pandas script to automate data cleaning and summarization.
- Designed a Cloud/Networking Architecture diagram and built a Power BI KPI dashboard tracking onboarding funnel and ticket-deflection metrics.
- Built a phased AI Implementation Roadmap (Discovery through Optimization) and an API Integration document describing REST-based connectivity to HR systems.

ACADEMIC PROJECTS

Evaluating Project Management Practices in Assessor Scheduling Automation | *Capstone Project*

- Analyzed and documented project management practices applied to an automated scheduling workflow, evaluating process gaps against standard PM methodology and recommending improvements.

Taste of Africa — Restaurant Website Project Plan | *Jira · PowerPoint*

- Built a Jira board to plan and track development of a restaurant website and documented the project plan and board structure in a PowerPoint presentation.

PROFESSIONAL DEVELOPMENT

- Early Childhood Professional Development Conference, Humber Polytechnic (Toronto, ON — Jun 2023): engaged with educators and industry professionals on evidence-based practices, child wellness, and professional standards.
- Participated in ECE professional networking events and community learning opportunities to exchange best practices and strengthen professional knowledge.

EDUCATION

Ontario Graduate Certificate, IT Project Management

Humber Polytechnic, Toronto, ON | 2026

Diploma, Early Childhood Education (Registered Early Childhood Educator – RECE)

Humber Polytechnic, Toronto, ON | 2023

Bachelor of Computer Applications (BCA)

University of Madras, Chennai, India | 2016

CERTIFICATIONS

- AWS Summit Toronto 2026 — Amazon Web Services
- AI Fluency Framework & Foundations — Anthropic (Jun 2026)
- Claude 101 — Anthropic (Jun 2026)

- A Guide to Artificial Intelligence — Microsoft (Apr 2026)
- Introduction to AI Concepts — Microsoft (Apr 2026)
- STEM — Tinker Labs L3C
- Registered Early Childhood Educator (RECE) — Humber College
- Standard First Aid & CPR Level C

TECHNICAL SKILLS

Project & PMO	Project Charter, Business Case, RAID Log, RACI Matrix, Status Reporting, Milestone Tracking, Project Scheduling, Process Documentation, Process Improvement, Root Cause Analysis, KPI Reporting
Business Analysis	Requirements Gathering, Stakeholder Analysis, Power-Interest Matrix, User Stories, Acceptance Criteria, Behavior Specification
Agile Delivery	Agile, Scrum, Sprint Planning, Backlog Management, Jira, Confluence
AI & Governance	Agentic AI Design, AI Governance, Non-Human Identity/Agent Authentication, Prompt Engineering, AI Evaluation Rubrics
Reporting & Tools	Excel, Power BI, Microsoft Project, SharePoint, Microsoft Teams
Programming & Cloud	SQL, Python (pandas), Cloud Fundamentals (AWS, Azure), Make.com
